Comment:

Caitlin is a seasoned SPAN 3000 instructor and delivers consistently excellent results. Her classes are always well-planned and students participate actively and intelligently. She creates original and effective activities and holds students to a high standard. This fall she had to deal with an unusually problematic student and handled the situation with maturity and professionalism, seeking support and advise as appropriate and always keeping the student's best interests at the center. This was particularly remarkable given that 1) the student's attitude and behavior was extremely disruptive and inappropriate and 2) Caitlin was preparing for and taking her comprehensive exams during Fall 2014 so was under extra pressure which never showed in her interactions with me or the student.
